

# Blush

## Mr Twin Sister

Could you be near me?  
There's something that I need to say  
It's kind of a strange thing,  
Just tell me that it's okay  
Have you ever felt like  
You would always be alone?  
That no matter what you do  
You'd always feel this hole?CHORUS:  
If you could just read me  
I would make everything right  
Inside there's a real me  
Who's been shying away from the light  
Don't you believe me?  
Are you alright?  
Is there even a real me?  
Or am I just a series of nights?Blush  
BlushNow you have my secrets  
But you haven't said a thing  
Show me your darkness  
Let my shadow take it in  
Have you ever felt like  
You would always be alone?  
Like no matter what you do  
You'd always feel this hole?CHORUS:  
If you could just treat me  
I would make everything right  
Inside there's a real me  
That's been shying away from the light  
Don't you believe me  
Are you alright?  
Is there even a real me?  
Or am I just a series of nights?
