Omnious Bloodvomit

Bloodbath

Strong Obsession burning will suspend!
Obsessed with thoughts of evil he will slay!
Final ??????????? my kill on the way
Will scratch into my mouth a giant grin
Fills me up with pain upon the brim

[Chorus]
Vomit of blood, omnious sign!
Puts my health on a steady decline!
Terrifying scum, bastard of the earth!
Life turns into torture a minute stuck in birth!

Churning blood from every howl!
Calling out the remains of my soul!
Steaming out my eyes; what a terrible deed!
Lord, I pray for mercy!

The wound on me

Sacrifice!....To the freak!
Still alive I'm so weak!

He's upset you won't come into death!
and his mind will not take my last breath!
He's upset you won't come into death!
and his mind will not take my last breath!

Obsessed with thoughts of evil he will slay!
In my own ???????????????? way
Will scratch into my mouth a giant grin
Fills me up with pain upon the brim

[Chorus: x2]

So you're my victim of torture!
Terrible guts and gore!
Live in death, live in death!
Escape for there are only more

You are my victim of torture

Doomed, locked into the womb
Look at you! Look at you!
You suffering human form

[Chorus: x2]
