

# Answers We'll Never Get

## Bayside

Wonder if I said the right things  
Would this wound have bled so much  
Words are all that we have left for us Wonder why you had to be in such a rush  
I'll march into my graveyard and bury you now  
The last man standing  
But not the last one laughing While worms eat your body  
And the fog covers your grave  
I'll still be trying  
To get your laugh out of my head I just need some more  
Just need some more time  
It's not how we should say goodbye  
Wasted my time And I thought you were stronger  
Than ones before  
When I said that I needed  
Some time I didn't expect you to quit  
Now that I lost you  
Feels like I lost myself  
I found regret Answers we'll never get  
Answers we'll never get
