

Half Empty

Old Dominion

A girl like you in a bar like this
Well, no offense but you don't fit in
Red lipstick on the rim of that glass
All dressed up, all by yourself, what's up with that? Are you here to chill, are you here to party
Are you just here trying to get over somebody?
Is it a high, or is it a low?
Baby, I just gotta know Is your glass half-full or is it half-empty
Are you only having one or one too many?
Are you drinking alone or having one more with me
Is your glass half-full or is it half-empty? Is this take a seat or take a hike?
Is it take a shot or on the rocks tonight?
Is it lonely or just alone?
Would you wanna tap your number in if I handed you my phone? Are you here to chill, are you here to party
Are you just here trying to meet somebody
Letting me get to you or letting me go
Baby I just gotta know, know, know Is your glass half-full or is it half-empty?
Are you leaning to the side of the fifty-fifty?
Are you leaving alone or leaving here with me?
Is your glass half-full or is it half-empty? Are you windin' up?
Or windin' down?
Are you paying your tab?
Or are we painting the town? Is your glass half-full or is it half-empty
Are you only having one or one too many?
Are you drinking alone or having one more with me?
One more with me Is your glass half-full or is it half-empty?
Are you leaning to the side of the fifty-fifty?
Are you leaving alone or leaving here with me?
Is your glass half-full or is it half-empty?
