Perfect Groove

Luka Bloom

I'm looking for the perfect groove
I'm getting ready to move
There's so much rhythm to choose
I wanna sing for you
I wanna sing for youI'm looking for the perfect tune
So perfect I could swoon
And dance like honeymoon
I wanna sing for you
I wanna sing for youI love it when different people
Come and gather around
They dip into a different world
There's a singer in townI love to see the bodies swaying
Hips shifting along
Together we'll find the rhythm
Get into the song
The night could be longI'm looking for the perfect food
It's not undercooked or stewed
It's just a just the tasty little mood
I wanna sing for you
I wanna sing for youI'm looking for the perfect you
And a love that's simple and true
It's what I'm ready to do
I wanna sing for you
I wanna sing for youI love it when different people
Come and gather around
They dip into a different world
There's a singer in townI love to see the bodies swaying
Hips shifting along
Together we'll find the rhythm
Get into the song
The night could be long
