

Black Roses

Inner Circle

Whatever happened to my garden of black roses
Oh nurturing years of so long When I was a boy I planted a garden yeah
That meant so much to me one of reality, yeah
A garden of love none like this before
One of a kind equality, yeah
A prayer for you and me Whatever happened to my garden of black roses
Oh nurturing years of so long, so long Whatever happened to my garden of black roses
They say a stranger treated them wrong If we can keep the candles burning
To shelter them from pain
Oh, let them laugh again Shower the world with their innocence
Who's tears felt like rain
History remains the same But one by one they come up missing
Strangers thought, strangers thought I was sleeping
Some life, some life means nothing to some
Watch out now we've got them on the run, on the run, yeah Whatever happened to my garden of black roses
Oh nurturing years of so long Whatever happened to my garden of black roses
They say a stranger treated them wrong Tell me whatever happened to my garden of black roses
Will some one help me sing this song
I haven't seen them for so long, so long My black roses, where have you been
Will some one say, my, my black roses
My precious black roses, night and
I hear the children cry they say Whatever happened to my garden of black roses
Oh nurturing years of so long, so long Whatever happened to my garden of black roses
They say a stranger treated them wrong Whatever happened to my garden of black roses
Will some one help me sing this song, please
