

Parachute (feat. Clara Mae)

Galavant

[Verse 1]

Thin air, it's getting hard to breathe
Silence, echoes in the deep, in the deep
Flashlight, I'm guiding you the way
When colours are fading into grey, fading into grey[Chorus]
Because I'm in it with you now
Falling into the blue, I'll be your parachute
I'm in it with you now
Falling into the blue, I'll be your parachute
I'll be your parachute
Falling into the blue, I'll be your parachute

[Verse 2]

Your heart, like a grenade
Stuck inside a hurricane, a hurricane
So close, I'm feeling every beat
I'm fighting as long as you need, as long as you need[Chorus]
Because I'm in it with you now
Falling into the blue, I'll be your parachute
I'm in it with you now
Falling into the blue, I'll be your parachute
I'll be your parachute
Falling into the blue, I'll be your parachute[Bridge]
The night skies, daylight, gun fires
I swear I will stay here, I will stay here
The night skies, daylight, gun fires
I swear I will stay here, I will stay here
