Follow Me Into The Darkness

Fightstar

I woke on the floor next to an empty bed
Summer will come all in an afternoon
Days come and go, like the weather it changes
Come for the weekend and we'll sail away
You, you are never alone
You, you are never alone
Days spent in the rain
Some people say it's a shame that we
Only get to live once
But if you'd seen the things that I've seen
Follow me into the darkness
And sink your fears into the night

I woke on the floor next to an empty bed
In my dreams there were monsters and what they said
Was follow me down into a dark place
Well, come back and see me when I fall asleep
You, you are never alone
You, you are never alone
Days spent in the rain
Some people says it's a shame that we
Only get to live once
But if you'd seen the things that I've seen
Follow me into the darkness
And sink your fears into the night
