Doot do doo do doo do do doo
Doot do doo do doo do do doo
Doot do doo do doo do do doo Oh Donna, won't ya pick me up tomorrow?
I need to get out of this place, I'm in and get my life in order
Let's go far away from here and not come back until the coast is clear
I'm fallin', thinkin' of you, I count the days And all the funny things we do, I'm so sorry now you ignore me
Tried to explain, but it's such a long story
Saw you in the lobby, now you never call me
You smiled, then pretended that you never saw me Oh Donna, won't ya pick me up tomorrow?
I need to get out of this place, I'm in and get my life in order
Although this world, just might fall apart
I've got enough in my heart to get us started
Come with me, oh, I'm beggin' you please
Or just say goodbye, cause this is the end of me Doo doo, doot doo doo doo
Doot doo doo doo
Doot doo doo doo, doo doo Oh Donna, won't ya pick me up tomorrow?
I need to get out of this place I'm in and get my life in order
Although this world, just might fall apart
I've got enough in my heart to get us started
Come with me, oh, I'm beggin' you please
Or just say goodbye, cause this is the end of me
Or just say goodbye, cause this is the end of me
