

# You Deserve

Natalie Grant

How can I come bringing no more than this ?  
You are the Lord you're wrapped in holyness  
But here I am before you now, here I am  
You deserve every mountain falling  
You deserve every ocean reaching  
You deserve all creation crying out your worth  
You deserve all of heaven singing  
You deserve every nation rising  
I have heard that what You want most is my love  
How can I be the one your heart aches for?  
Still can't believe you say that I am Yours  
So here I am before you now, Here I am  
You deserve every mountain falling  
You deserve every ocean reaching

You deserve all creation crying out your worth  
You deserve all of heaven singing  
You deserve every nation rising  
I have heard that what You want most is my love  
My love, my love, What You want most is my love  
My love, my love, Lord, I offer You my love  
My love, My love, yeah a yeah

.....

You deserve every mountain falling  
You deserve every ocean reaching  
You deserve all creation crying out your worth  
You deserve all of heaven singing  
You deserve every nation rising  
I have heard that what You want most is my love
