

I Fell in Love With My Friend

[Kal Lavelle](#)

I fell in love with my friend
And I dont know how to tell them
And every time they say goodbye
Well I keep hoping stay the nightOh and we can be lovers
Well take our friendship under covers
Oh when I hold your body tight
Stay with me tonightI got so much longing in my eyes
How come you dont realize it?
And as you walk into the night
I just want you to realize itI fell in love with my friend
And I dont know how to tell them
And every time they say goodbye
Well I keep hoping stay the nightAnd as we sit in your room
You play me songs that youre in love with
Oh but Im in love with you
Oh yeah Im in love with youI fell in love with my friend
And I dont know how to tell them
And every time they say goodbye
Well I keep hoping stay the nightI fell in love with my friend
And I dont know how to tell them
And every time they say goodbye
Well I keep hoping stay the nightI fell in love with my friend
