

# I Got The Message

## Zz Top

I'm picking up on a signal that's in the air tonight  
It's sparkin' my receiver it feels like dynamite  
I got the message but I wanna get it straight from you  
My mind is electric I'm about to blow a fuse  
The cockpit is empty so shoot it down the tube  
I got the message but I wanna get it straight from you  
I've got to make a connection I'm on needles and pins  
Workin' up a printout and I'm gonna zero in  
I got the message but I wanna get it straight from you
