Repeat After Me

Patti Page

Repeat after me
It's nice to talk with you
(It's nice to talk with you)
Repeat after me
I love your eyes
(I love your eyes)Repeat after me
It's nice to walk with you
(It's nice to walk with you)Every step leads us closer to paradise
And if you approve of the song my heart is singing
There's just one way to let me knowSo repeat after me
I'll always love you
(I'll always love you)
I'll always love you
(I'll always love you)But tell me once more
Of the song your heart is singing
I like to hear it once againThen repeat after me
I'll always love you
(I'll always love you)
I'll always love you
(I'll always love you, always, always always love you)
