Open up Your Eyes (Acoustic 2016)

Tonic

Choosing stones
Big enough to drag me down
Where I am
People's voices make hollow sounds
Just be quiet
They'll go away
Open up your eyes
Don't let your mind tell the story here
Open up your eyes
Just let me goIt's so safe
It's so safe floating in the glass
While above
While above all your troubles pass
Just be quiet
They'll go away
Open up your eyes
Don't let your mind tell the story here
Open up your eyes
Just let me go
Open up your eyes
Don't let your mind tell the story here
Open up your eyes
Just let me go, let me go, let me go
Open up your eyes
Just let me go
