

# Sunshine

## Gabrielle

Made a wish, I can dream  
I can be what I want to be  
Not afraid to live my life  
And fulfill my fantasies I learnt a lot of tricks to help me live my life  
You helped me find my paradise  
When you came you were my Sunshine through my window  
That's what you are my shining star  
Sunshine making me feel like  
I'm on top of the world telling me I'll go far Reaching out, for the highs you inspired me to try  
I felt the magic inside and I felt that I could fly  
I'm looking at the world in an optimistic light  
You made me appreciate my life  
'Cos when you came you were my Sunshine through my window  
That's what you are my shining star  
Sunshine making me feel like  
I'm on top of the world telling me I'll go far Sunshine through my window  
That's what you are my shining star  
Sunshine making me feel like  
I'm on top of the world telling me I'll go far You are the calm I am the storm  
You are the breeze that carries me on  
When I said a truth you wink at me  
You're there for me Sunshine that's what you are my shining star  
Sunshine making me feel  
I'm on top of the world telling me that I'll go far  
Sunshine through my window  
That's what you are my shining star Sunshine making me feel  
I'm on top of the world telling me that I'll go far  
Sunshine through my window  
That's what you are my shining star Sunshine making me feel  
I'm on top of the world telling me that I'll go far  
Sunshine my star, my star
