We Will Not

Bad Brains

Ms. Babylon your queendom is doomed, across this land you'll spread your no more gloom. Cause one ah thes days you gonna get your jilt and we'll never hae to deal with no more of your filth. We will not do what they want or do what they say. Oh no. We will not do what they want or do what they say. Oh No. Oh, Mr. Bacon, your future time is near and to the people, no more lies do they wanna hear. We read the bible and see your 666. And now we'll never have to deal with no more tricks. We will not do what they want or do what they say.
