

# How Could I Let You Get Away

## The Spinners

Like howdy-do  
Your tin soldiers, your clowns too  
They're all laughing at you  
I'm laughing at you too Like basketball  
Five fouls and that was all  
The games you really knew, yeah  
Why couldn't I beat you In the middle of the room  
Got no time to count my sheep today  
How could I let you get away  
When I knew I'd need somebody soon hoo hoo  
How could I let you get away  
When I knew I'd need somebody soon Like mother goose  
Winds you up then turns you loose  
Block ten was beatin' two  
And I can't tell green from blue, no no Like cat and mouse  
Games of chase instead of house  
I get so mad at you  
Like parents often do In the middle of the room  
Got no time to count my sheep today, baby  
How could I let you get away  
When I knew I'd need somebody soon, hoo hoo  
(How could I let you get away) baby  
When I knew I'd need somebody soon Ooh baby  
(How could I let you get away, baby) how could I let you get away, baby  
(When I knew) when I knew I'd need somebody soon, yeah  
Hey, baby  
I didn't count my sheep, I let my woman weep, baby  
(When I knew I'd) I knew down inside I'd need somebody soon Like mother goose I done let you loose (how  
could I let you get away)  
And need you, baby, yeah  
Ooh-wee, I need somebody soon  
Help me now, keep my feet on the ground (how could I let you get away)  
My baby
