

Magic

Circle City Band

That magic from the sparkle in your eyes

Makes me realize

I know that you are the only one for me

That magic from the sparkle in your eyes

Makes me realize

I know that you are the only one for me

Just like a flash of light

You came into my life just like a fire

You gave me love so strong

A feeling new was burned in your desire

You gotta a power that amazes me

You shoot a spark through my heart

And put a spell on my heart baby

And it's magic!

That magic from the sparkle in your eyes

Makes me realize

I know that you are the only one for me

The true devotion from the feeling in your heart

Means we'll never part

You know that I'm the only for you'll need

Ah yeah, You've got a magic touch

So babe it doesn't seem real like an illusion

I have to hold on tight with all my might

Don't wanna lose you

You've got a power that knocks me off my feet

Spell so strong your love enhances me!

That magic from the sparkle in your eyes

Makes me realize

I know that you are the only one for me

The true devotion from the feeling in your heart

Means we'll never part

You know that I'm the only for you'll need

Ah yeah

That magic from sparkle in your eyes

Makes me realize

I know that you are the only one for me
The true devotion from the feeling in your heart
Means weâ€™ll never part
You know that Iâ€™m the only for youâ€™ll need
Ah yeah

You know, you know your spinning through my mind baby
I just donâ€™t know how to explain
(Hey baby)
You make feel so warm, so warm deep down inside
(Hey baby)
I just want you to know that i love that I need you
(Girl your making me hot baby)
Huh huh, come here baby
(Your making me hot baby alright)
Ahhh! Huh huh! Youâ€™re so sexy baby

That magic from the sparkle in your eyes
Makes me realize
I know that you are the only one for me
That magic from the sparkle in your eyes
Makes me realize
You know that you are the only one for me
(Ah girl)
That magic from sparkle in your eyes
Makes me realize
I Know youâ€™re the only oneâ€™!
