

# Till I Met You

## Laura Story

I've known pain and deep regret  
I've known the weight of my mistakes like the back of my hand  
I've known deception and all its games  
I've known the way it feels to drown in my own shame

But I never knew love  
I never knew truth  
I never peace, the sweet release that brought me through  
I never knew freedom, what grace could do  
The broken chains, the hope that saves, a life made new  
Till I met You.

I've known rejections  
I've bought the lie that I could never overcome the hurt inside  
With arms of mercy You reach for me  
Tore the veil away and gave me eyes to see  
You're all I need

And I never knew love  
I never knew truth  
I never peace, the sweet release that brought me through  
I never knew freedom, what grace could do  
The broken chains, the hope that saves, a life made new  
Till I met You (I'm accepting I was hopeless)  
Till I met You (I was stumbling in the darkness)

I never knew love  
I never knew truth  
I never peace, the sweet release; You're the one Who brought me through.  
And I never knew freedom, what grace could do  
The broken chains, the hope that saves, a life made new  
Till I met You (till I met You)  
Till I met You (till I met You)  
Till I met You
