If I Found Out

Athlete

Out of energy
I don't know what to do with myself
Made it eventually
And now I'm restin' on the very last breathAnd all I needed was this one
To get me back on my way
It wasn't long before I realized
There was no time to wasteThere was soul all around me
Everybody let go
It wasn't long before we realized
There was no time to wasteLike I'm eleven again
I was the highest kid in the world
I reached a point with no end
Just lookin' out so I can take it all inAnd all I needed was this one
To get me back on my way
It wasn't long before I realized
There was no time to wasteThere was soul all around me
Everybody let go
It wasn't long before we realized
There was no time to wasteAll I needed was this one
To get me back on my way
It wasn't long before I realized
There was no time to wasteOoh, soul
Ooh, soulI thank you for soul
No point unless you got soul
This world has got to have soul
Lookin' round for your soulDiggin' down, digging down
Diggin' down to your soul
And I found out you got soul
You'll be holdin' out all your soul
Liftin' up all your soul
'Cause I thank you for soul
