I'd Go Through It Again

Ponder, Sykes & Wright

What It took to get my attention
was a wasteland a long way from home
I thought I could hide
But I broke down and cried
I was dirty and scared and alone
That's when I heard the soft whisper
Why He waited so long I don't Know
I'd come to that place with tears on my face
So His limitless mercy could flow

Chorus
In spite of the shame and the guilt of my sin
In spite of the hurt that was burning within
and the years that I wasted to find What is true
I'd go through it again to end up here with you

You can see that He's all that you needed
When you realized He's all that you got
When you hit enough walls and take enough falls
You find He is all you are not
Now, the list of my failures is endless
and my choices have taken their toll
But thank God I am here and my title is clear
He delivered this old sinner's soul

Chorus
In spite of the shame and the guilt of my sin
In spite of the hurt that was burning within
and the years that I wasted to find What is true
I'd go through it again to end up here with you

Bridge
You brought me through the years in the dark
So I could love the light I had to see
I was lost to want to be found

Chorus
In spite of the shame and the guilt of my sin
In spite of the hurt that was burning within

and the years that I wasted to find What is true
I'd go through it again to end up here with you

I'd go through it again
