Olivia

Pitahati

Knowing us like we do
And I wish we weren't all through
Knowing us like we do
Why do I feel like I shouldn't call you
Things just aren't the same
Wish that I could just change my name again
And try to run away and though you're far
We still just sit under the same old stars
Knowing us like we do
I wish that we were through
Knowing us like we do

Why do I feel like I can't call you
Was it just the space
That we were never in the same place
And oh, I know I lost you in my head
There's no more waking next to you in my bed
As the pillow turns to stone instead
Knowing us like we do
And I wish we weren't all through
Knowing us like we do
Why do I feel I shoundn't call
Why do I feel like I shoundn't call you
Call you now
