

# (I'm Gonna) Split This Room In Half

## American Pie 2 [Original Sound]

I know a guy who took too many pills  
Now he's got a mansion that sits on a hill  
14 million served that's correct  
17 cars, 3 cribs and 2 jets I came to test to blood, sweat, tears  
Persevered for ten long years  
10 years, I was there for 8  
And I ain't seen a meaner mutha puttin' food on our plate I've learned to hate and that's a damn shame  
Because I'm gettin' pretty good at this bitch ass game  
See, fame ain't the problem, it's broke  
Pissin' on my dog 'cause they're down on their luck Now you're stuck like a pig in the poke  
You know you're makin' him mad and you're goin' to get choked  
Don't you know every dog has a limit  
Yo, I'm about to kick somebody's ass in a minute I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?) I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?) Sometimes success leads to stress  
Legal roles and dumb hoes and death threats  
Nat work for network and that works  
And people jerk for perks that ain't theirs And that hurts, you work your whole life  
And that still ain't enough  
'Cause a bunch of punks wanna poach your stuff  
(That's not your stuff)  
So don't touch that  
(And don't make me break with this baseball bat 'cause) I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?) I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?) You're not playing nice  
My dog likes to share  
You're goin' to get smacked for not playin' fair It's in the air you can feel the tension  
We don't take kind to senseless dissension  
You bark like a dog, you fight like a dog  
You live by your dog, you die by your dog Now there's a calm before the storm  
And I'd hate to be you when it starts to get warm

Clouds are forming, crowds are swarming  
You've had for warning, now pray for mourning 'cause I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?) I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?) I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?) I'm gonna split this room in half  
(Why'd you have to go and get my dog all mad?)  
I'm gonna split this room in half  
(I said, why'd you have to go and get my dog all mad?)
