

# Tyranny Normality

## Papa Roach

The media is the seduction of human desire  
(Set their money, set their money, on fire),  
If you try to sell me the truth then I know you're a liar, a liar

[Chorus]

It's the tyranny of normality,  
It's the tyranny of normality

Our culture has become complacent, and has no desire  
(Take back, take back our empire),  
And the ethical slaughter of truth needs to be retired, retired

[Chorus]

It's the death of outrage! I want to turn a new page!  
I mourn the death of our age, the obituary's on the front page!  
Since the death of outrage, I want to turn a new page!  
I mourn the death of our age, the obituary's on the front page,  
It's the death of outrage, I mourn the death of our age,  
The obituary's on the front page

[Chorus]
