All Fall Down

Thornley

I push too far, I can't turn back
I sit around and wonder 'bout the friends I have
Make your choice and follow your path
There's a fork in the road, every mile and a half
Ooh, how'd I end up here?
Ooh, it never was quite clear
You know, you're never gonna change my mind
Doesn't it seem like a waste of time?
You know I'm always gonna cross that line
And I'll keep telling you, it takes all kinds
One more ripple in a big flat world
Find a little shelter, baby girl
One more ditty from the lost and found
One more step and we all fall down
One more cross, I have to bear
Spend a little too much time down there
Wear my scars, pink and proud
Still can't say her name out loud
Ooh, I guess I lost my head
Ooh, let's put this thing to bed
Well, you know, you're never gonna change my mind
Doesn't it seem like a waste of time?
You know I'm always gonna cross that line
And I'll keep telling you, it takes all kinds
One more ripple in a big flat world
Find a little shelter, baby girl
One more ditty from the lost and found
One more step and we all fall down
Well, you know, you're never gonna change my mind
Doesn't it seem like a waste of time?
You know I'm always gonna cross that line
And I'll keep telling you, it takes all kinds
One more ripple in a big flat world
Find a little shelter, baby girl
One more ditty from the lost and found
One more step and we all fall down
You know you're never gonna change my mind
Doesn't it seem like a waste of time?
You know I'm always gonna cross that line

I'll keep telling you, it takes all kinds
One more ripple in a big flat world
Find a little shelter, baby girl
One more ditty from the lost and found
One more step, we all fall down
