

# Four Letter Word

## Gossip

Put my best foot forward  
Trying to ignore the events of the day  
Pacing back and forth  
Slowly going nowhere, running in place And it looks like it's gonna rain again  
Oh, another four letter word  
Never gonna be the same again  
Oh, another four letter word Staring out my window  
Look down at the street below, children at play  
Round and round and round it goes  
Where it stops, no one knows, their faces seem to say And it looks like it's gonna rain again  
Oh, another four letter word  
Never gonna fall in love again  
Oh, another four letter word Love is a four letter word  
That should never be heard  
Love is a four letter word  
A four letter word L is for leaving  
O is for on time  
V is for the voices warning me, I'll lose my mind  
E is for the ending, the unhappy ending of the four letter word Looks like it's gonna rain again  
Oh, another four letter word  
I never wanna see your face again  
Oh, another four letter word Never gonna fall in love, never gonna fall in love  
Never gonna fall in love, never gonna fall in love  
Never gonna fall in love, never gonna fall in love Never gonna fall in love again  
I never wanna see your face again  
Never gonna fall in love again  
I never wanna see your face again
