

# Slow Down Linda

[Eric Clapton](#)

Well, if you're looking for a winner  
Then know you got to go with me  
I've got more ashes than Wednesday  
You know I can brew my tea Well, I fixin' to teach you every thing I know  
I'll take you with me, baby, everywhere I go  
If I can catch you for a minute  
I know you'll take a chance with me So slow down, slow down, slow down Linda  
Don't you think I could save a little time with me?  
So slow down, slow down, slow down Linda  
Don't you know that I've been waitin' for your company? I've seen you speedin' down the highway  
When you ought to dig the scenery  
And you can wolf down your dinner in the time it takes to drink my tea You're always rushin' 'round  
everywhere you go  
You leave me eatin' dirt on the side of the road  
I can't keep runnin' much longer, you always go too fast for me So slow down, slow down, slow down Linda  
Don't you think that you could save a little time with me?  
So slow down, slow down, slow down Linda  
Don't you know that I've been waitin' for your company? I think that you're gettin' too old to be runnin' 'round  
I think it is time you thought about settlin' down So slow down, slow down, slow down Linda  
Don't you know that I've been waitin' for your company? Yes, you're always rushin' 'round everywhere you go  
You leave me eatin' dirt on the side of the road  
I can't keep runnin' much longer, you always go too fast for me So slow down, slow down, slow down Linda  
Don't you think that you could save a little time with me?  
So slow down, slow down, slow down Linda  
Don't you know that I've been waitin' for your company? So slow down, slow down, slow down Linda, slow  
down Linda  
Don't you think that you could save a little time with me?  
So slow down, slow down, slow down Linda  
Don't you know that I've been waitin' for your company?  
So slow down, slow down, slow down Linda
