You Make Me Want To

Luke Bryan

You make me want to
Hold you like a hammock on a summer day
Tell you how I'm gonna take your cares away
You make me want toYou make me want to
Roll down the river, run around the bend
Love you like a story with a happy ending
You make me want toYou can blame it on my southern boy ways
Why I'm always runnin' away?
I don't know if I can ever change
But you make me want to, you make me want toYou make me want to
Hang up the phone, ride across town
Walk through your door and lay it down
Kiss you till you feel the truth, yeah, you make me want toYou can blame it on my southern boy ways
Why I'm always runnin' away?
I don't know if I can ever change
But you make me want to, yeah, you make me want toWell, I never met a girl like you
That's got me thinkin' like I do
To hang up my hat and kick off my boots
But you make me want to, you make me want to
You make me want to, baby, you make me want to
