All Over Again

Little Big Town

I can see the moonlight shining off the tracks
Down beside the river, and Lord, it takes me back
To that starry night when I made you mine
With a little midnight kiss
I can see us dreaming, wondering where we'd live
Just two wishful thinkers, just a couple kids
We were young and scared, but we didn't care
There in our innocence
[Chorus]Baby, why don't we play that old song from way back when
And Baby, why don't we go to that place we met and then

We can fall in love
We can fall in love
All over again
We can throw the top back, head on out of town
Drive along the coast til the sun is going down
Dancing in the sand, can't you hear the band
Let's get lost in time
[Chorus]We can fall in love
We can fall in love
