

# Get Up

## Wiretree

Get up, I know youâ€™ll find a way  
head up, look through those clouds of gray  
i know, itâ€™s been a long long time  
since you, had some peace of mind

time is all you need to make amends  
you are all that matters to me in the end

My head is full of all kinds of sound  
Its better when you come around  
my love is waiting there for me  
I hope to see what she can see

Days around my head they start to spin  
Only good things Matter in the end

Keep me from falling to the ground  
Some things are better when they're found  
These days seem to make you spin  
They go by, please remember them

---
