

# No Such Luck

[Michael McDonald](#)

By michael mcdonald/grady walker/harry garfield  
If we could dream our lives away  
That would be just fine  
Without the cares and fears that prey  
on everybody's mind  
Tryin' to get back to a memory  
Tryin' to put the flame back in our hearts  
As we look back and we see the past  
Like it never was  
Chorus:  
There ain't no such luck  
There ain't no such thing  
Can't blame the stars or fever of spring  
There ain't no such luck  
There ain't no such thing  
Something's always goin' wrong  
You know the things are about to change  
As time keeps moving on  
Wish your themes are staying the same  
We're just one step ahead of the heartaches  
Tryin' to disguise how they take their toll  
Just when you think that you got it down  
Then you lose control  
Chorus:
