

# She Don't Talk Like Us No More

**K.T. Oslin**

Used to be my very best friend  
We went everywhere together  
Even shared a boyfriend once or twice She was never satisfied  
Nothing 'round here suited her  
She never phones, she never writes  
Old friend that ain't right She don't talk like us no more  
She done run off and got certified  
She don't act like us no more since she moved away Using words she never used before  
She's almost as skinny as a movie star  
She don't even walk like us no more Now when she visits you'd think  
Minor royalty'd come to town  
All she does is talk about the city  
And she puts all the local stuff down She never asks me how I've been  
Or what I've been up to, it's a lesson in geography  
Ain't it amazing what a few miles can do She don't talk like us no more  
She done run off and got certified  
She don't act like us no more since she moved away Using words she never used before  
She's almost as skinny as a movie star  
She don't even walk like us no more I don't believe how uppity she's gotten, do you believe it?  
Honey, who, who does she think she is?  
Yeah, I don't believe how uppity she's gotten, do you believe it?  
Oh honey, who, who does she think is?
