Glass Jaw

Systematic

It never threw me like this
Ignored
A head buried in the sand
To retortIf it ever came down
To be a man
Or break my fallPeel back the skin again
So I knowAnd I wait, and I wait
To live this damn thing out
And I wait, and I wait
To be the thing I never was beforeA head case
I can't refrain all of my flaws
Rebound or rationalize
Just to stallWell, I'm well aware
And I think you care
From your easy chairRemission is all
That I can't affordAnd I wait, and I wait
To live this damn thing out
And I wait, and I wait
To be the thing I never wasAnd I wait, and I wait
To live this damn thing out
And I wait, and I wait
To be the thing I never was beforeAnd I wait, and I wait
To live this damn thing out
And I wait, and I wait
To be the thing I never wasAnd I wait, and I wait
To live this damn thing out
And I wait, and I wait
To be the thing I never was before
