

# Glass Jaw

## Systematic

It never threw me like this  
Ignored  
A head buried in the sand  
To retort If it ever came down  
To be a man  
Or break my fall Peel back the skin again  
So I know And I wait, and I wait  
To live this damn thing out  
And I wait, and I wait  
To be the thing I never was before A head case  
I can't refrain all of my flaws  
Rebound or rationalize  
Just to stall Well, I'm well aware  
And I think you care  
From your easy chair Remission is all  
That I can't afford And I wait, and I wait  
To live this damn thing out  
And I wait, and I wait  
To be the thing I never was And I wait, and I wait  
To live this damn thing out  
And I wait, and I wait  
To be the thing I never was before And I wait, and I wait  
To live this damn thing out  
And I wait, and I wait  
To be the thing I never was And I wait, and I wait  
To live this damn thing out  
And I wait, and I wait  
To be the thing I never was before
