

Women Got My Money

Rusted Root

Come, pay the body
Come, pay the body
Come and make the body pay Me, Im lookin for an old pickup truck
One that wont leave me stranded a lot
Just to have that old point of view of you Women got my money
Come on, leave your island, girl Come, pay the body
Come, pay the body
Come and pay the body Well, hold on, dont go
Our reason has yet to unfold
Lets take on a little time
To loosen my weary mind Women got my money
Come on and leave your island, girl Me, Im lookin for an old pickup truck Women got my money
Come on and leave your island, girl
