## One Life, One Chance

## **H2O**

What if I said I was an accident waiting to happen Would I trip and fall, fall on my words? And would you say, say that I was wrong My words were out of place Went where I didn't belong? This to me is fact and fiction plays a role Confusing situations that I can't control Heart of the matter, it beats with pride Sometimes, I wear it on my sleeve Sometimes, I keep it insideAnd no one said it was gonna be easy And I'm not afraid to try And with the odds stacked up against me I will have to fight One life, one chance, gotta do it rightAnd I can't let fate dictate what's best for me Gotta take control of my own destiny You can't relate, you think there's no escape But I got everything at stake here Just to prove you wrongAnd no one said it was gonna be easy And I'm not afraid to try And with the odds stacked up against me I will have to fight
