

Roundtrip To Hell And Back

Children Of Bodom

When I close my eyes I keep falling
Thought I'm plunging down, it's like flying
It's funny how I'm high yet never floated so low
Just wanna refrain from this horrid death row, yeah
And when I get back from numbness to feeling
Thinking I was out, I got pulled back in
Within this mother fucking
Death fall, confinement of terror
Roundtrip to hell and back
Save me, forever lost
I'm bounded in a place that ones was heaven
Please don't let me go, hold me tight
All I am asking is to make it alright
Death fall, confinement of terror
Roundtrip to hell and back
Save me, forever lost
I'm bounded in a place that's your mother fucking
Death fall, confinement of terror
Roundtrip to hell and back, yeah
