

# In Control

## Mnemonic

Fearless rejection  
Breathing with imperfection  
Living with imperfection  
Listen to me when I say  
That I will never get back to you  
You bite the hand that was feeding you Dark thoughts nailed into your fate now  
Dark thoughts awaiting to shine now I choose a way with no surrender  
I choose a way with no surrender Won't you stay away, away  
I guess it's not the last time  
Won't you stay away, away  
I just hope it's the last time Looking after me  
I need you and you need me  
But it seems you didn't read the information Dark thoughts nailed into my fate now  
Dark thoughts awaiting to shine now Keeping me calm before I explode  
Keeping me calm you're keeping me close You don't know my determination  
I'll make you feel a new sensation Won't you stay away, away  
I guess it's not the last time  
Won't you stay away, away  
I just hope it's the last time I need to be in control  
In control of myself  
In control of myself  
Fearless rejection  
Imperfection Won't you stay away, away  
I guess it's not the last time  
Won't you stay away, away  
I just hope it's the last time I need to be in control  
In control of myself I choose a way with no surrender  
I choose a way with no surrender
