

Reward

Nonpoint

Rooms spin like hurricanes
Walls begin to breath
When will this be over
Like it more
Then i should
Its taking over me
When will this be over
Fighting for you
Struggling for you
Waiting for you

What do i do this for
All for the high
Why do i do this why
All for the high
I rummage through this disaster
To find a reward
Why do i do this why
All for the high

Torn in half again
I still feel the same
My head spins like a hurricane
I cant see
Right in front of me
Through the shit inside of me
When will this be over
Fighting for you
Struggling for you
Waiting for you

What do i do this for
All for the high
Why do i do this why
All for the high
I rummage through this disaster
To find a reward
Why do i do this why

All for the high

My head spins

Lost control

When will this be over

My eyes roll

Look inside

When will this be over

What do i do this for

All for the high

Why do i do this why

All for the high

I rummage through this disaster

To find a reward

Why do i do this why

All for the high
