3 Seconds To Freedom

Pop Evil

You're everything I hate
You're everything I love
When everything that's right
Comes falling from above
You only wish you could erase
The walls that hold you down
Every second that is lost, another moment that is found
So save yourself, don't let is slip away
[Chorus]Just save yourself tonight
Stop the fight
Cause everything is over
You think you got what it takes then get up, get up, get up
If you want it, then I want it more, come on
3, 2, 1
We've got 3 seconds to freedom

I'm the one who's singled out
You're the reason I'm up in arms
If there's no turning back
Then show me where to start
Cause you're still everything I hate
You're everything I love
Now who will save you
Now who will save you now?
Don't let it slip away
[Chorus]Ain't no better time to hate then right now,
Don't let it slip away before the walls come down,
Save yourself tonight, we only get one shot
We've got 3 seconds to freedom
[Chorus]
