

# Fillip

## Muse

It's happening soon, it's happening soon  
It's scent has been blowing in my direction  
To me it is new, to me it is new  
And it's not gonna change for anybody And it's gonna be our last memory  
And it's led me on and on to you It's gotta be here, it's gotta be there  
It's gotta be now or I'll lose forever  
To me it is strange, this feeling is strange  
But it's not gonna change for anybody And it's gonna be our last memory  
And it's led me on and on to you Accuse me  
Trust me, I never knew  
That you were the one  
You were the one And it's gonna be our last memory  
And it's led me on and on to you And it's gonna be our last memory  
And it's led me on and on to you, you, you, you
