

A Way With Women

Bobby Valentino

With his powers of persuasion
He'll not fail where love's concerned
 He must have made his move
 while my back was turned

But you've got to hand it to him
 He knows how to shoot a line
He's sure got a way with women
As he's just got away with mine

He's a sweet romantic charmer
 who can steal your girl away
 His surefire style
 could easily spoil your day

He might as well betray you
 with a flashing neon sign
He's sure got a way with women
He's just got away with mine

I didn't see it happen
 It all went by so fast
 He came out,
 stole the one I thought
 would be first to last

He's a tall dark handsome loner
 with a voice as smooth as silk
 We've got a name
 for creatures of his ilk

I'll search in every continent
 to try to stop that swine
Who's sure got a way with women
 As he's just got away with mine
He's sure got a way with women
 He's just got away with mine
