Your b i, feel it in your chest
Your b i, feel it in her breasts

Plus you, rhyme like a nigga wit his nipples pierced
We lick off lyrics in the streets and real niggas hear us
Dreamin when I wrote this, box me if I go too wild
Still doin this shit like dude in wild style
Invitin wack niggas to dinner
I "trick daddy" emcees and I don't know, "nann nigga"
Who can take it where I take it
You better go into God like mase did
Leavin crowds complacent
I move em above clouds whether on some ? surface the earth? shit

Or thug style you can feel it in your body Yeah y'all you can feel it in your body Like if a 12 gauge shottie shell hit your body You don't want no one to find your ass a hobby Carbon copy, niggas tryin to clone us You know us, thelonious, super microphone You know this, rap shit we 'bout to own it dun, for real Ay, it's like a ritual You been invited let the ? ? stimulate the place With the grace, nevertheless, I stress Let the music put a smile on your face As for the ritual, when it comes to spiritual excellence You know I always leave you with the taste I know you like it hard to the core That's what you ask for ??????? Hurtin like a ? ? in that ass, like a ritual Conversation with the most high makes me wanna cry I wonder why, you wanna get to paradise But that itty bitty part of you don't wanna die So pay attention to my word, 'cause it's the truth Meditation ease the mind, and brings the youth It's like a verse you could never read out of a book Darken the line and your mind like a fish hook Word is birth, yo I do it till the break of day Pay attention to your art, never go astray Word is bond

Yo we do it and we don't quit
Sucka nigga you don't want it, it's thelonious
Ownin this rap shit, super microphonist, and we known to spit
I spit fire like esther on sanford and son did
I'm raw dude, more juice than sunkiss
You want this, so mj kept sayin the rhyme flawless

Shit fly like mj in his prime, "off the wall" wit mines I'm grabbin my balls when I rhyme, nine nines bustin plus Ball all the time, now stay on your mind like great sex You ain't on my mind I'm thinkin 'bout paychecks Niggas large like an adex avirex jacket Yo the gods they bust like latex sex packets Emcees they don't rhyme and ball, they lyin' to y'all They dyin' to ball, the rhyme we do all the time We do all the fine bitches they fall in lines Me and my mans is somethin like the source sports We gettin money a long time and y'all short My niggas bounce and full rise and y'alls fall You funny doo, 'cause really you think you can do me When you roll a 500 that's really a 320 Should of let somebody else hook it Numbers look crooked like king kong shook it I'm from where niggas bang gats when they celebrate That's how they play, don't let it be a holiday Thelonious niggas, if you testin us we get you laid back Show you the definition of a pay back
