

# Women Keep Watching Us

## Bizzy Bone

[Intro:]

Yeah, aight

See, what I want y'all to do

I want y'all to open up y'all Bacardi's[Hook:]

The way the women keep watchin us

Well gimme some will power, Bacardi

In this New World Order

This New World Order

This new world

In this new world

In this new world

In THIS new world

Women Keep watchin us

Well gimme some will power, Bacardi

In this New World Order

This New World Order

This new world

In this new world[Verse 1:]

Better move ya body-ody, uh

We doin it thug style, we in the party

Women are buck wild, turnin around

Interior, show me what'chu workin with-workin with

You be on that erkin-jerkin, you be on that twerkin, quit it

You got to admit it, that'chu on a mission to have a good time

With a pocket full of paper, keepin a pocket full of mine

Twenty fours, that's mine

Caught spinnin 'em blind

Came in the club off the bus and spent mine, divine

Gimme Kalu and I'll maneuver little Henny and wine

I stepped back in the rap game, passed my prime

Chain swingin like the links, up in prison we shine

Like Katt said, "Grind baby, one more time"

In the corner at the table, surrounded by glock babels

Get'cha gangsta endurance, and y'all just represent the label

And um, and um, and um

Better move ya-better move ya body-ody-ody[Hook:]

The way the women keep watchin us

Well gimme some will power, Bacardi

In this New World Order

This New World Order  
This new world

In this new world[Verse 2:]  
Better move ya body-ody  
Three step, two step, walk with it  
Cha-cha, slide to the side, baby get it-get it  
Square there, hit that, get back  
Move kitten move! You can do you too when the mood's hittin  
Baby you don't need no permission, get real close  
No bullshittin, keep up the rhythm and make a choice  
Now move with it, what shall I do with it  
Through with it, you can act a fool with it, watch my toes  
Oh, you did it  
Sway to the side with a true fitted  
Put it on, meet me at the table  
That's where you sittin  
Mmm, give me attitude  
Gratitude, peace, wait up  
Before you flee's, may I buy you a drink please?  
Class and I'll show you a glass  
You can thug out in the corner with a flask  
Watchin the cars pass me by  
With my tipsy eyes, be at the club at the party  
And my word the wise is  
Better move ya body[Hook:]  
Keep watchin us  
Now gimme some will power, Bacardi  
In this New World Order

In THIS new world[Verse 3:]  
Better move ya body-ody  
Laughin over bud, but feelin lovely  
If your women wanna touch me, then hand cuffs  
Enough and bust playa smooth shit  
Pass by then we outtie  
Get rough with me, rowdy  
She still gon' come around me  
Fresh like Cool Water, flip collar, Downy  
Khaki's freshly creased like I'm fresh out the county, howdy  
Tell the truth, catch a candle, relief  
Now it's me and you, so my dogs don't doubt me  
Do what we do over drinks, club closin  
Last call, last song, stay calm, now how do I know  
I hit the dance floor, once we get on it, we on it  
Shake hands at the party, keep a number and I'm goin um  
Better move ya-better move ya-better move ya body-ody  
Better move ya-better move ya-better move ya body-ody  
Better move ya-better move ya-better move ya body-ody-ody-ody-ody[Hook:]
