

My Foolish Way

The Softies

hide and seek now I'm fast asleep
once again I missed my turn
I feel so naive next to herbut maybe I'll get better
maybe then I'll never ever ever again
disbelieve when you say
you love my foolish wayshe knows you
so much better than I do
I toss in my sleep
and I fret all day long
you find it charming
that I'm always wrongmaybe I'll get better
maybe then I'll never ever ever again
disbelieve when you say
you love my foolish way
