

# Where The Light Gets Lost

## Slow Club

I know how the story goes  
flown from the flagpole at dawn  
I had my chance and tried to let you know  
I had my chance and this is letting goBut you could be patient babe  
or run away  
might never learn the cost  
I'm sorry I could never answer  
where the light gets lost  
I'm still sat here waiting up  
not sure if I should go  
and search for you yet  
keep thinking that my luck is running up  
so maybe I should just place the betBut I keep on wading out  
it's good enough for now  
but which stream can you trust  
I'm sorry I could never answer  
where the light gets lost  
That's us out in the virgin snow  
playfully trading blows  
and taking when we must  
I'm sorry I could  
never answer where the light gets lost  
where the light gets lost
