

# Mend

[Anna Abreu](#)

Why are you weeping, yes, I still love you  
We fight and fall down and mend  
Here drink some water, soon you'll feel better  
I know we have all my love  
Whatever it was is lost  
Whatever you've said forgotten  
Why don't we lay down and talk in the morning  
Don't cry, just close your eyes and mend  
Whatever it was is lost  
Whatever you've said forgotten  
Why are you weeping, yes, I still love you  
We fight and fall down and fall down and mend
