Send Somebody

Icehouse

we need, all need something
to believe
and I need someway
to be what I am
'cause that's my world
to take up the chance
and it's my life
I do what I cancan you send somebody? (somebody)
I don't want to be
the last survivor
can you send somebody? (somebody)
send somebody? be with me, hey
send somebody? (somebody)
I don't want to be
the last survivor
can you send somebody, hey? (somebody)
send somebody, be with me, heyjust secret lovers understand
they hide in the shadows
they write in the sand
'cos that's their world
oh oh, it's just a romance
and it's their life
they do what they cancan you send somebody? (somebody)
I don't want to be
the last survivor
can you send somebody, hey? (somebody)
can you send somebody? be with me, hey
send somebody? (somebody)
I don't want to be
the lone survivor
can you send somebody, hey? (somebody)
can you send somebody? be with me, hey
