Crazy

Ian Van Dahl

You opened up my eyes Made me realize You made me stronger
Ooh you changed my way of life Now I have found myself I'm getting stronger
Ooh you make me feel all right With you I can be myself Now I'm getting stronger
Every time you touch me I can't control my body and when I look at you I'll go crazy
You woke me up inside Seduced me with your smile You made me stronger
Ooh you changed my way of life Now I have found myself I'm getting stronger
Ooh you make me feel all right With you I can be myself Now I'm getting stronger
You make me feel so strong
Every time you touch me I can't control my body and when I look at you I'll go crazy
