

# Take a Chance

## Zeds Dead & Omar LinX

### VERSE 1.

Take a chance

Always shared a life with a risky plan  
Never would've thought that it'd get so sad  
Life's a joke does it make you (hahaha)?

I'm in the sky

I'm on some shit that'll make you fly

It's all for the ride

Why feel low when you can feel high (2x)

It's the world that we live in

It's all too dull and it's all too vivid

Everything wrong but the world keeps spinnin'

And if I were king it would all be different

Wish I coulda made you proud

It's too bad how things turned out

Hands on your head

Face in the ground

Try to get up and I shut you downHOOK. (x2)

I'm in the sky

I'm on some shit that'll make you fly

Its all for the ride

Why feel low when you can feel high-(x2)

Mr. Doubtful Didnt they

Mr. Doubtful didnt they tell

Mr. Doubtful didnt they tell you

There's demons up in the ceiling and they say that they're here to help you

Close your eyes

Why feel low when you can feel high

Close your eyes

Why feel low when you can feel high

I'm in the sky

I'm on some shit thatll make you fly

Its all for the ride

Why feel low when you can feel high-(x2)VERSE 2

Let it crawl through your veins

Let it be, let it breathe

Let it alter your brain

Let it wash you away

Let it take your breath

Let it cause you pain  
Ive watched you change  
There's no where safe just walk away  
Ive seen ya skeem  
Ive lost your game (x2)  
Say lets play ball  
\*Aim for the stars, winner takes all  
Take it to the top and then watch it fall  
Dont be alarmed thats who you are  
What a thing to say  
Everything to lose and nothing to gain  
Looking for the sun but you end up in the rain  
truth be told thats everydayHOOK. (x2)  
I'm in the sky  
I'm on some shit thatll make you fly  
Its all for the ride  
Why feel low when you can feel high (x2)
